AIMS

- ☛ To adopt, utilize and integrate Science, Engineering & Technology (SET) as effective instruments for achieving the material welfare of mankind, at the same time, opposing any attempt to the exploitation of masses through SET.
- ☛ To adopt and develop Bharatiya languages as media of SET at all levels, especially in taking SET to the masses.
- ☛ To spread the splendid contributions of ancient SET, Bharatiya civilization, culture and art amongst students / youth for laying the foundation of modern sciences and thus to establish that modern science is not all a western product.
- ☛ To establish the interface between SET and humanism in all facets-physical, mental and spiritual.
- ☛ To organize and conduct meetings, lectures, courses, science research seminars and other activities of interest to the members in their quest for special development and harmony through SET.
- ☛ To address the artisans, craftsmen, farmers and tribals; promote, preserve & modernize their skills for sustainable growth of industry & society and make them economically strong towards rural development through nurturing a culture of seamlessness in all facets of life and inputs of modern SET integrated with the traditional knowledge who are in fact the true reflection of the spiritual and the material facets of Bharatiya culture and civilization.
- ☛ To undertake the challenge to connect a vast reservoir of innovations by the invisible informal sector to the visible established institutions that are exposed to modern Science and innovate in a formal way, towards making Bharat innovative and a global leader in sustainable technologies through a major drive of an integrated outreach for R & D through a knowledge society leading to a National Innovation System.
- ☛ To disseminate SET to the members and the general public through publications of periodicals, reports, books on SET both ancient and modern, etc.
- ☛ To establish, regulate and maintain supporting centers at regional, district, tehsil, panchayat/city and other appropriate levels and science forums at schools, colleges, universities, polytechnics and similar institutions.

☛ SET should not have devil objective. SET shouldn't strive to commercialization against ethics/morals. SET shouldn't be above society. SET not contributing towards the welfare of people, should be considered useless.

☛ To cooperate, collaborate and coordinate with other societies or bodies pursuing allied aims and objectives.

PURASKAR

Continuing with our earlier decision to organize a public function on this occasion and give away selected awards, different awards will be bestowed for the sixth time eg. Swadeshi Vigyan Puraskar will be given to those Nationalistic persons/institutions from all over India who have contributed significantly in Education, Science, Engineering, Technology and Social service of the nation. Arya Bhatt Puraskar will be given to the selected Science writers/Journalists who have had the distinction of reaching out to the common public through their scientific approach at the popular level during last 64 years. Innovation comes only when there is competition; without competition there can't be innovation. Keeping this in mind, the selection committee will also decide "on the spot" for the Arya Bhatt Samman to be bestowed to those 5 innovators/ tribals/ artisans/ craftsmen who present the best paper / product presentation in the conference. Biography of the various persons is therefore invited for this purpose. Director Generals/Directors/Vice-chancellors Principals/Managing Directors of different research, educational & industrial organizations and the Parliamentarians can also nominate the persons for the said awards. Decision of the organisers will be final in the selection.
